FIRE SAFETY TIPS

>>> HOW TO STAY SAFE AS WE HEAD INTO FALL

The greatest number of structure fires happen between the months of November and April. It's important to have your heating systems inspected and cleaned prior to using them.

Carbon monoxide poisoning is a greater concern during the colder months as well. If you heat your home using hydrocarbon fuels, it's vital you have a working carbon monoxide alarm.

FIRE PREVENTION WEEK!

Check out the link to learn more fire safety tips, complete the NFPA Kids challenges and you will become an official member of Sparky's Fire Safety Club!

October 5-11 is Fire Prevention Week!

During Fire Prevention Week, children, adults, and teachers learn how to stay safe in case of a fire. Firefighters provide lifesaving public education in an effort to drastically decrease casualties caused by fires.

Fire Prevention Week is observed each year during the week of October 9th in commemoration of the Great Chicago Fire, which began on October 8, 1871, and caused devastating damage.
