This illustration is a hypothetical compounding calculation assuming a rate of return of 7% on a \$30,000 annual salary. It is not intended to serve as a projection or prediction of the investment results of any specific investments. Investments are not guaranteed. Depending on the underlying investments, returns may be higher or lower. If costs and expenses had been considered in this illustration, the return would have been less. The interest is compounded annually based on weekly contributions.

This material is not a recommendation to buy or sell a financial product or to adopt an investment strategy. Investors should discuss their specific situation with their financial professional.
